- Portfolio
 - I will likely use webflow as a way to design my site so I can have all of the flexibility with the design and location of assets.
 - <https://webflow.com/>
 - I am very interested in Brittany Chiang's website because she designs and develops her own work.
 - I have very minimal work that I have designed and developed so I will likely just show a few projects from interaction design to show my capabilities as a designer. Likewise, I will be fixing and uploading some functional projects as examples.
 - <https://andrewborstein.com/>
 - I also like how simple the above sit is but it is not my personality
- Brand Identity
 - <https://www.mightyfinecopy.com/?ref=weirdwidewebring>
 - In terms of brand identity, I would love for my website to be as bold and colorful as possible like in the site above. The resume will need some tweaks to color to comply.

 - i. Style as specified by Lowe
 - b. Finishing up a working version within the next 2 weeks
4. Mom's Website - <https://danastrull.com/>
 - a. Work Needed
 - i. update fonts
 - ii. add section with redirect to new site
 - b. will take about 1week to complete unless other updates are needed
5. Brand Book –
 - a. Work needed
 - i. look for spelling and other mistakes
 - b. will take about 1 week to finalize unless other updates are needed
6. iPhone Tic Tac toe –
 - a. Work Needed
 - i. Mostly it needs to be stylized
 - ii. Functionally working
 - iii. Find a website that has iPhone simulator
 - b. will take about 3 weeks. Need to redesign and remember how to use XCode
7. I am leaving about 3 weeks at the end of the semester to work on the website implementation
 - a. after site implementation recoloring my resume should be fairly easy. I am open to suggestions on how to make it better. It is long but I feel like I am not old enough to have a 2 pg resume.

The journal of my work will be displayed via a GitHub project board. assignments will be added as needed.
